Daily NetFlow Traffic Report

Sunday, 11 October 2026 · 2026-10-11 00:00 – 24:00 · Asia/Riyadh (UTC+03:00)

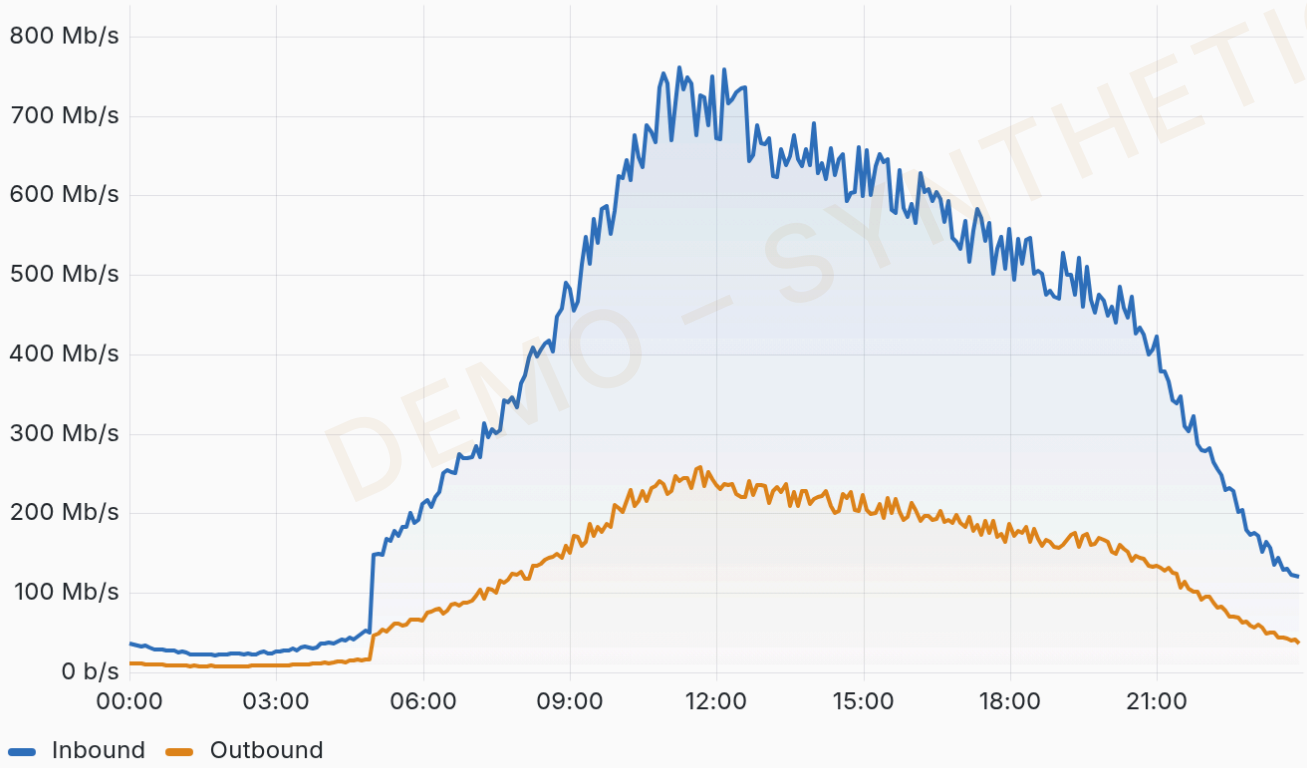

COMPLETE

Data coverage 100% · 288/288 intervals

DEMO - synthetic data, not measured · this is a layout example, not an operational report

INBOUND (EST.)	OUTBOUND (EST.)	PEAK INBOUND	PEAK OUTBOUND	TOTAL (EST.)	DATA COVERAGE
4.1 TB	1.4 TB	760.8 Mb/s	258.0 Mb/s	5.5 TB	100%
Average 378.9 Mb/s	Average 127.2 Mb/s	at 11:15 · 5-min average	at 11:40 · 5-min average	Inbound + outbound	288 of 288 five-minute intervals
▲ 6.5% vs prev. day	▼ 2.9% vs prev. day			▲ 3.9% vs prev. day	

Traffic by direction - 5-minute average

KEY OBSERVATIONS

- Inbound 4.1 TB and outbound 1.4 TB (estimated from sampled flows); average 378.9 Mb/s in and 127.2 Mb/s out.
- Inbound peaked at 760.8 Mb/s at 11:15; outbound peaked at 258.0 Mb/s at 11:40 (5-minute averages, Asia/Riyadh).
- Total volume +3.9% against the previous day (inbound +6.5%, outbound -2.9%).
- Largest source: 203.0.113.10 with 11.8% of inbound plus outbound volume.
- Volumes are estimates: exporters sample 1 in 1000 packets and each record is scaled by its sampling rate.

COLLECTION & COMPLETENESS

Status	COMPLETE
Intervals with data	288 / 288
Exporters reporting	3
Newest flow record	7.1 h ago
Volume basis	Estimated (sampled)

EXPORTERS (EACH LISTED SEPARATELY - NOT ADDITIVE)

EXPORTER	SITE	INBOUND	OUTBOUND	SAMPLING	COVERAGE	LAST RECORD
demo-edge-01	DEMO-HQ	2.4 TB	755.4 GB	1:1000	100%	23:55
demo-edge-02	DEMO-DC	1.3 TB	480.7 GB	1:1000	100%	23:55
demo-branch-01	DEMO-BRANCH	450.1 GB	137.3 GB	1:1000	97%	23:55

DATA QUALITY & METHODOLOGY

- Volumes are derived from NetFlow records scaled by the exporter sampling rate: sampled exporters give ESTIMATED traffic, unsampled exporters give observed volume.
- Direction comes from interface boundary metadata (external to internal = inbound). Transit and unclassified flows are not part of inbound or outbound.
- Top-10 shares are relative to inbound plus outbound volume; per-IP and per-service tables use flow records classified as inbound or outbound only.
- Exporters are listed separately and are not added together; a flow seen by two exporters appears in each exporter row.
